The B.B collection consists of a dining table with seats, which recall Wanders' "New Antiques" collection, seeking a contrast between the weight of the archetypal forms and the lightness of the transparent plastic.

The B.B Chair, in a full Marcel Wanders style, has the amphorae leg like the Louis Philippe and therefore it requires that the backrest and the seat be upholstered in multicolored jacquard fabric.

With its extrovert mood, even the colored version is ideal for the living room.

The chair can be combined with the table which has the same leg pattern. The legs of the chair and the table are available in the black and transparent versions.

The goal of the collection is to nurture the relationships between objects, settings, and people who will live them.
